The K&F CS 5 is the most compact model in the Kling & Freitag Sound Systems series. The loudspeaker system is suitable for a variety of uses, both indoors and outdoors. An elegant, slightly tapered, conical design serves for subtle integration in all environments. The CS 5 impresses through its broad frequency range (82 Hz - 20 kHz) and advanced efficiency. Balanced frequency response and equal coverage make a large contribution to the superior sound reproduction quality of the speakers.

T-Nuts on three sides of the enclosure cater for simple and flexible installation combination with ball joint mounts available as accessories. Simple mounting using picture hooks possible! Terminal clamps for fast wiring.

Suitable for the following areas of use: Exhibitions presentations, paging and background sound in restaurants, bistros, surround sound, AV use (magnetic shielding), outdoor sound in gardens, etc, integrated into ceilings as high-quality ceiling systems. Optional: 100 V version with internal or external transformers.
Architects’ & engineers’ specifications

Weather-resistant and magnetically shielded compact, 2-way, full-range loudspeaker, 5" woofer and ferrofluid cooled dome tweeter in polycarbonate with phase alignment plug, integrated crossover, trapezoidal enclosure in ABS plastic, finished in black or white, 6 x M6 T-Nuts for mounting accessories, removable front grille with black or light grey cloth covering.

Technical specifications:
Frequency response: 60 Hz - 20 kHz (-10 dB), 82 Hz - 20 kHz (±3 dB), Max. SPL: 112 dB (SPL peak/1 m), Sensitivity: 88 dB (1 W/1 m), Power handling: 50 W, Impedance: 8 ohms, Dispersion pattern: 90° x 60° (hor. x vert.), Directivity index (DI): 8 (+2/-2) 1.2 kHz - 13 kHz, Connectors: Terminal clamps, Dimensions (W x H x D): 163 x 238 x 160mm, Weight: 2.6kg, Options: 100 Volt version, Wall mount with ball joint, Active amplifier with balanced input.

Type: Kling & Freitag CS 5
